

PRESS RELEASE**Collett launches Irish subsidiary.**

OCTOBER 03, 2017. We are pleased to announce the launch of our new subsidiary company Collett (Ireland) Ltd.

Collett have been operating across UK, Ireland and Europe for over 40 years, servicing our clients transport requirements with our specialist vehicles and trailers as and when required, and furthermore with our freight forwarding services, whilst dealing closely with our network of preferred sub-contractors.

However, due to increased volumes and planned workload that is anticipated, along with successfully winning orders for projects in the Irish market, the time is right to stretch our arms across the Irish Sea and open our own Irish Company. This demonstrates our commitment to the Irish market and to build stronger ties with our clients and suppliers.

The company is registered in the Irish republic, in order to satisfy the Irish Tax and fiscal regulations and we have recently been granted a 'Road Transport Operator Licence' by the Department of Transport in Ireland to operate legally within the province and avoid falling foul of the EU cabotage regulations.

The Company is now operational and we are busy delivering the Tullahennel and Meenwaun Wind Farm projects. In the meantime we have had very positive feedback for future projects and look forward to building a successful business and service level for our clients.

PRESS RELEASE**More About Collett & Sons Ltd**

Established in 1928, Collett & Sons is a successful family-owned company. Originally a Transport company, Collett has developed into a specialist multi-modal logistics operator with a defined focus in its four closely run divisions. With specialist teams dedicated to Transport, Heavy Lift, Marine and Consulting, Collett & Sons has evolved to reflect the diverse nature of the business and the clients it serves. These four integrated divisions allow Collett & Sons to offer a 'one stop shop' service, expertly managing any project from concept through to completion.

Specialists in the Oil & Gas, Aerospace, Power Generation, Heavy Engineering, Renewables and Civil & Infrastructure markets, Collett & Sons have a wealth of experience transporting and moving difficult loads throughout the UK, Europe and worldwide.
