Friday, June 09, 2017

CMA CGM, a leading worldwide shipping group, is pleased to announce the launch starting July 2 of its new service between the East Mediterranean, Djibouti, Arabian Gulf, Pakistan and India. The service is one of the fastest between these strategic zones and connects CMA CGM hubs in the Mediterranean and the Arabian Gulf.

INDIAMED will complement our MEGEM (East Mediterranean to/from Middle East) and MEDEX (West Mediterranean to/from Middle East & Indian Sub-Continent) offering synergies between services to allow an improved port coverage of these areas and better connections.

Rotation will be: Khor Fakkan – Karachi – Nhava Sheva – Mundra – Djibouti – Jeddah – Damietta – Piraeus – Malta – Aliaga – Mersin – Port Said West – Khor Fakkan

With this new INDIAMED service, CMA CGM will significantly improve its offer for the following trades:

East Mediterranean to India and Pakistan with a new direct and fast service

East Mediterranean to the Gulf, to complement existing services but with faster transit times and increased reefer capacity

Gulf, India and Pakistan to Djibouti with a new direct service

India and Pakistan to Red Sea and East Mediterranean with direct calls in Turkey, Malta and Piraeus with the possibility of connection to a wide array of ports in East Mediterranean, Adriatic, Black Sea and North Africa.

East Africa to Europe via an optimized transshipment in Djibouti

Djibouti to U.S. with an optimized transshipment in Damietta, and to Europe through Mediterranean hubs

CMA CGM will operate this service in collaboration with its affiliate APL and its Ocean Alliance partner
